Projects

Personal Portfolio Website

main.d1qdu8os9xdx2b.amplifyapp.com

Created a responsive personal portfolio showcasing my skills, projects, and experience. Implemented smooth GSAP animations, interactive UI, and deployed the website using AWS Amplify with GitHub-based continuous deployment.

Steel Fabrication - Vijay Industries

steelfabrication.in

Designed and developed the official website for a steel fabrication company to showcase its products, engineering capabilities, and services. Focused on responsive design, intuitive navigation, and a professional user experience to strengthen the company's digital presence.

SRS Shirts

<https://srs-shirts-three.vercel.app/>

Developed a modern and responsive website for a local wholesale clothing business to showcase products and improve online visibility. Designed an intuitive user interface with optimized layouts for seamless browsing across devices.
